As traditional pest management materials have been lost or threatened, researchers throughout the West have collaborated to develop new programs and materials to address these losses. This symposium affords a unique opportunity for growers and pest managers to learn about the pros and cons of these new tools and the best way to integrate them into orchard systems. The presenters are some of the most knowledgeable people in pest management research, development and practice in the US today and have been key players in the development of these new materials and systems.

**EXHIBIT HALL:**

Highlighting reduced risk products, monitoring tools,  
local research and demonstration efforts.

*Commercial Products Displays:*

**Bayer** - Matt Ehlhart

**Cerexagri** - Roy Whitson

**Dow AgroScience** - Barat Bisabri

**Pacific BioControl** - Jack Jenkins

**Suterra** - Rich Bakke

**Syngenta** - Marty Wigglesworth

**Trece** - Jeff Downs

**Valent USA Corp.** - Tom DeWit
