

Tuesday, March 14th, 2017, 7:30am – 9:00am

Join Area IPM Advisor Emily Symmes and Orchard Systems Farm Advisors Janine Hasey and Franz Niederholzer to discuss current pest management and production issues.

We will largely focus on orchards crops (but everything is on the table for discussion!). These meetings are open to all interested growers, consultants, PCAs/CCAs, and related industry. Planned topics for this meeting include managing spring diseases in a wet year and getting your pest monitoring program started for the season. Please contact Emily Symmes to request additional topics or bring your questions to the meeting!
