NICKELS SOIL LAB ANNUAL FIELD DAY

Tuesday, June 1, 2021
Marine Ave, Arbuckle, CA

PCA CE credits requested; CCA CE credit requested

Mark your
calendars

Early Bird Special.

Open 7:30 am - 8:30 am

Nearby the registration tables, but further than a 5 minute walk and so not included in the full program, this trial measures pMaroduction from Nonpareil(50%), Aldrich (25%) and Kester (25%) almond plantings on Titan (peach/almond hybrid, 5th leaf) or Rootpac-R (almond/plum hybrid, 4th leaf) at 12', 14', 16', or 18' tree spacing. All row spacings = 21'. Research reports from 2020 will be available. There will be a very brief intro to the planting at 7:30 and then it's an "open house" with trial maps available with signs showing what is planted where. Drive on over to Marine Avenue for Nickels Field Day!

Registration & Refreshments (sponsored by Colusa-Glenn Farm Credit)

8:30 am

Meeting Cycles begin at 9:20 am

Confirmed topics of interest:

- Weed management in young orchards
- Whole orchard recycling (WOR): soil quality results
- Whole orchard recycling (WOR): fertilization recommendations
- Managing young almond plantings on vigorous rootstocks
- Planting options
- Stay for lunch and listen to our speaker from Blue Diamond Growers!
Help us support our local Pierce High School FFA program,
Tri-Tip BBQ lunch \$20 (preferably by reservation, call our office 530-458-0570 to reserve yours today!)
- Additional topics to come and possible equipment demo!
- Full agenda coming very soon!
