

SIERRA FOOTHILL ORGANIC FRUIT AND NUT CROPS VARIETY DEMONSTRATION

W H E N : SATURDAY, JUNE 7, 2003
 10:00 - 11:30 AM

W H E R E : THE SIERRA FOOTHILL RESEARCH AND EXTENSION CENTER,
 8279 SCOTT FORBES ROAD, BROWNS VALLEY, CA. FROM MARYSVILLE TAKE HIGHWAY 20 EAST
 (ABOUT 14 MILES) TOWARDS GRASS VALLEY, TURN NORTH ON PEORIA ROAD AND FOLLOW THE
 SIGNS (5 MILES).

W H A T : YOU WILL SEE A MIX OF DIFFERENT FRUIT AND NUT VARIETIES THAT WERE PLANTED IN
 1992 OR MORE RECENTLY AT THIS LOW ELEVATION FOOTHILL SITE (ABOUT 600 FT.) TO DETERMINE
 WHAT CROPS AND VARIETIES PERFORM BEST UNDER FOOTHILL CONDITIONS. THE TREES HAVE ALSO
 BEEN GROWN ORGANICALLY SINCE 2001. WE WILL DISCUSS ORGANIC PEST, WEED AND NUTRIENT
 MANAGEMENT PRACTICES.

W H O : DAVE LABADIE FROM THE RESEARCH AND EXTENSION CENTER, JANINE HASEY, UC FARM
 ADVISOR IN SUTTER AND YUBA COUNTIES, AND JOHN TECKLIN AND LEONARD CHAPMAN FROM
 MOUNTAIN BOUNTY IN NEVADA CITY WILL DISCUSS VARIETY PERFORMANCE, ORGANIC PEST
 CONTROL AND CULTURAL PRACTICES. THERE WILL BE AMPLE TIME TO WALK AROUND THE PLOT,
 LOOK AT TREES, SAMPLE FRUIT FROM SOME VARIETIES AND ASK QUESTIONS.

*Sponsors include University of California Cooperative Extension, Sutter and Yuba Counties and The Sierra
Foothill Research and Extension Center.*

PLEASE CALL THE SUTTER/YUBA UCCE OR THE SIERRA FOOTHILL RESEARCH AND EXTENSION CENTER IF
SPECIAL ACCOMMODATIONS ARE NEEDED.
